The shieago Tribune says: "For several weeks in succession the clearings have exceeded those of the corresponding week of last year. For the week just closed the clearings were \$2.5 distingainst \$2.21.85 for the similar partial of 1875. There can be no mistake about the meaning of these figures. Fries have decilined on an average fairly 10 p r cent. So that business must have increased proportionately to bring it up in dollars and cents to the level of last year operations. In addition to this there has been an increase of about 1 per cent. The same stale of affairs prevails in the other leading cities. New York, Philadelphia and Roston have each goined in business, according to their clearings. The only two exceptions for the week ending October lith were st. Louis and New Orleans." Nothing was reported pesterday of sules in local stocks or bonds. There was an occasional inquiry for Memphis gaz stock, for which 19 was offered.

will be at all times a clear width of nine hundred feet, with a least depth of twenty-one feet and a maximum depth of thirty-one feet below mean low water. A red light is placed on each side of this channel."

Peter Branch, the negro who murdered Frank Mullins, the mate of the Illinois, at Vicistourg last September a year ago, was tried and discharged by a Vicksburg lury last Friday, after point-blank evidence had been produced that the negro committed the deed in cold blood. It is alleged that the prosecution failed to establish the fact that Mullins died from the effects of the blows inflicted by Hranch, the certificate of br. Avant, of this city, and the sworn verdict of the coroner's jury to that effect not being considered sufficient evidence by the Vicksburg court. According to the testimony given before the coroner's jury which investigated the case (Mullins having died here) in this city, it was as cold-blooded and provoked murder as wave ever committed. Four Mullins's untimely taking off thus goes unaverged.
